

I. Data to Be Collected

a. Goal

Mission Objective:

Data Product Goal:

Success Criterion:

b. Data Collected by the Robot

- **Category 1 — [Name]:**
 - Measurement 1 (unit)
 - Measurement 2 (unit)
- **Category 2 — [Name]:**
 - Measurement 1 (unit)
 - Measurement 2 (unit)
- **Category 3 — [Name]:**
 - Measurement 1 (unit)
 - Measurement 2 (unit)
- **Category 4 — [Name]:**
 - Measurement 1 (unit)
 - Measurement 2 (unit)
- **Daily Summary:**
 - Metric 1 (unit)
 - Metric 2 (unit)

II. Types of Measurements on the Spreadsheet

The spreadsheet is organized into multiple sheets to keep the dataset clear and usable. Below is a breakdown of each sheet:

1. **Sheet 1 — [Name]:**
2. **Sheet 2 — [Name]:**
3. **Sheet 3 — [Name]:**
4. **Sheet 4 — Daily Summary:**

III. Sample Spreadsheet Structure

Table 1: Sample Sheet: [Sheet Name]

Column 1 <i>(unit)</i>	Column 2 <i>(unit)</i>	Column 3 <i>(unit)</i>	Column 4 <i>(unit)</i>	Column 5 <i>(unit)</i>
Row 1 data	—	—	—	—
Row 2 data	—	—	—	—
Row 3 data	—	—	—	—

Column Descriptions:

- **Column 1** — Description of what this column records and its relevance.
- **Column 2** — Description of what this column records and its relevance.
- **Column 3** — Description of what this column records and its relevance.
- **Column 4** — Description of what this column records and its relevance.
- **Column 5** — Description of what this column records and its relevance.

IV. Rationale and Alignment with Mission Objective

Alignment with Objective:
Why These Measurements Are Sufficient:
Potential Gaps or Limitations:
